

DAY FOUR POLICIES AND SAFETY

Name: _____

1. Reading Assignment
 - a. Grab one of the **Wall Street Journals** from the back. It can be from any day this week.
 - b. Find an article related to technology. Fold the rest of the paper that does not have tech stuff in them and either take it with you if you want to read it later, or put it into the recycle bin.
 - c. Answer the questions below. You may work with someone else on this.
 - d. Also materials from the assignments I gave you over the summer. (If you didn't do them, ask a neighbor.)

Reading Questions:

1. If Moodle is still sad, where will you go for your stuff?
2. What is the title of your article?
3. As a technician, what is the most important thing in the article that you would need to know?
4. As a student, what did you find interesting about the article?
5. As a consumer (someone who might buy something now, not necessarily the items talked about in the article) why might this article be interesting?

6. How does this information impact technology as a whole?

7. How does it impact society now?

8. How do you think it MIGHT impact society or technology in the future?

9. When you are done with the article, fold it and put it back on the table in the back, please.
